

CRESTFIELD

After School Program

The focus of Crestfield's After School Program is to provide a safe environment where youth have the opportunity to enhance their achievement, relationships and belonging. Our staff is committed to working with children and hardworking families. Staff continually participate in child development and education training, to ensure your child's safety, health, social and academic growth.

Our team is passionate about:

- Developing self-confidence and independence
- Communicating Core Values of Caring, Honesty, Respect and Responsibility
- Creating lasting friendships and lifelong memories
- Encouraging fun and healthy decision making
- Infusing learning and exploration into activities each day

Positive relationships among children, staff and parents are critical for each child's healthy development and social growth. Our programs work with families to respond to each individual child's feelings, needs, cultures, and abilities.

By utilizing Crestfields facilities and grounds we are able to offer open air spaces, outdoor exploration, and socially distant activities better serving students and families.

We are striving to provide options and solutions to our local families during these challenging times. Thank you for choosing Crestfield.

CRESTFIELD

After School Program

Additional information about the program!

A portion of our program will be an opportunity for students to work on homework from the school day. Staff will be present and available to help with technical support of their devices, answer basic questions, and encourage students to stay on task. Staff will not be available for one-on-one instruction.

We realize that virtual instruction is a major part of this school year. Students are permitted to bring their laptops and personal devices to do schoolwork. Once schoolwork is completed or the study time is done students will be asked to put away these devices.

If the student does not have homework for the day they are welcome to bring materials to engage quiet individual activities such as reading or drawing.

We will be utilizing our outdoor spaces as much as we can, weather permitting.

Additional information will be available in our Fall Parents Guide.

Pick up will be from 6-6:30pm in the office and will require a photo ID.

Parents/Guardians can park directly across from the office in the gravel lot.
